14. Completion: Construction of the Planned Residential Development shall be substantially completed within the period of time proposed by the Petitioner and established in the development ordinance, provided, the Petitioner may request and the Board of Trustees may approve an extension of time for good cause shown. 15. Compliance with Zoning or other Codes and Ordinances: Where there is a conflict between the provisions of this Article and any other provision or provisions of this Code, the provisions of this Article shall prevail. Except as otherwise set forth herein, all other applicable Village Code provisions shall apply to the Planned Residential Development.

16. Exceptions: The Plan Commission may recommend, and the Village board may approve, exceptions to the standards and criteria set forth in this Article when determined by the Village to be necessary to achieve the planning objectives set forth in this Article.

*   *   *

A. Open Space/Greenbelt: Open space shall be provided for Village residents in the form of parks, greenbelts, open space and recreational facilities, consistent with regulatory and policy directives of the Village and the provisions of this article.

1. Unless otherwise recommended by the Plan Commission and approved by the Village board, or unless otherwise provided by annexation agreement, not less than forty percent (40%) of the land within a Planned Residential Development shall be designated as open space, greenbelt and/or recreational facilities.

*   *   *

10. Not less than thirty percent (30%) of the total open space of any Planned Residential Development shall be unencumbered by environmental resources such as wetlands, streams, floodplains, floodways, creeks, or the like that render such space unusable for active recreation purposes. Conversely, not more than seventy percent (70%) of the total open space of any Planned Residential Development shall consist of an area or areas encumbered by such environmental resources.

B. Density Shift: Density within designated areas of a Planned Residential Development
may be established taking into consideration open space and/or recreational facilities provided under this section, subject to the limitation that in no event shall the maximum density in the development exceed 1.75 dwelling units per acre of the total gross area of the entire development.

C. Lot Size; Density: For purposes of calculating density, and unless otherwise recommended by the Plan Commission and approved by the Board of Trustees, actual lot size shall be as provided in the ordinance approving the Planned Residential Development. Provided, notwithstanding the above, the Plan Commission may recommend and the Board of Trustees may require minimum lot sizes that are larger than the minimum otherwise specified elsewhere in the Village zoning regulations, if in the sole judgment of the Village, deemed necessary or advisable to achieve the objectives of the comprehensive plan or those of this article.

D. Design: Dwellings in all Planned Residential Developments shall be designed to blend with the landscape of which they are a part. Both visual and acoustical privacy for residents shall be provided by means of site and architectural design. The Village may establish architectural controls as guidelines and standards for Planned Residential Developments. (Ord. 05-02, 2-10-2005)

15. The proceedings at the public hearing were recorded by certified shorthand reporter, and a transcript thereof, with all comments and questions raised at the public hearing, has been or will be filed with the Village Clerk.

16. Additional Findings (if any):

a) It was suggested that the Developer re-locate the proposed 30 duplex lots (60 duplex units) shown on the Preliminary Development Plan at a location adjacent to Ruth Park to the 40-acre parcel on the south side of IL 72; and replace those duplex units with single family residences at the location by the Park.

b) Members of the public expressed concern about future traffic on Century Drive / Johnson Drive in the adjacent White Oak Subdivision; and it was noted that a northern extension of Runge Road to connect with the proposed roadway in Tuscany Woods Unit #2 would require removal of a large stand of old oak trees; and construction of some other connection to Jake Lane may be blocked by wetlands. It was the consensus of the Commission that the trees should not be removed.
