RE: Our Claim No: 004501-002386-GD-01
Our Client: Village of Hampshire
Date of Loss: 11/05/2015

Dear Mr. Fahey

This will acknowledge receipt of your claim against our client, the Village of Hampshire, IL.

The Illinois Governmental Body Tort Immunity Act provides certain immunities from liability to governmental entities like the Village of Hampshire, IL. Under the Tort Immunity Act, willful and wanton negligence is needed to be found against a governmental entity, and not just ordinary negligence, for that entity to be held liable for an accident.

We have completed our investigation into your loss.

After careful consideration of the facts involved in this loss and the circumstances as they occurred, we find no evidence of willful or wanton negligence on behalf of our client which would have caused the damage to your vehicle. Once notified of a hazard such as a pothole, it is the municipality's responsibility to rectify the hazardous situation, such as filling the pothole, in a reasonable amount of time, which the village did in this situation.

Our client was not liable for the incident and we must respectfully deny liability for this loss. Gallagher Bassett Services is closing its file, at this time, without any payment.

Part 919 of the Rules of the Illinois Department of Insurance requires that our company advise you that, if you wish to take this matter up with the Illinois Department of Insurance, it maintains a Consumer Division in Chicago at 122 S. Michigan Ave., 19th Floor, Chicago, Illinois 60603 and in Springfield at 320 West Washington Street, Springfield, Illinois 62767

Re: Review of Ketchum Road Speed Limit  
Village of Hampshire  

EEI Job #: HA1512  

The Village of Hampshire is interested in reducing the speed limit on Ketchum Road adjacent to the Gary D. Wright Elementary School and the Hampshire High School entrance.

To evaluate this, we reviewed the Illinois Combined Statutes and found that a school speed zone (20 mph) could be established per the statute due to the proximity of the schools. However, given the rural setting and the current posted speed of 45 mph, a school zone speed limit of 20 mph does not seem practical. In establishing school speed zones, one also must consider the transition from posted speeds to the school zones; these must be reasonable.

To further evaluate this, we contacted Kane County Division of Transportation as they have established several school entrance speed limits within the county. To do this, they followed guidance from the IL Supplement to the Manual on Uniform Traffic Control Devices (IL MUTCD) to determine whether an alternate speed limit was warranted. They also performed a speed study to determine the prevailing speed of traffic. Once this was done, the school entrance speed limits were signed and adopted into County Code.

One place the County established a school entrance speed limit was on Kesslinger Road in Maple Park, adjacent to Kaneland High School. The County has also established a school entrance speed limit on Big Timber Road in Hampshire, adjacent to the Gary D. Wright Elementary School and the Hampshire High School. Photos of the signage on Big Timber Road are noted below:
On Big Timber Road, the normal posted speed limit is 50 mph; the school entrance speed limit is posted as 40 mph. The speed study conducted by the County on Big Timber Road found the 85th percentile speed to be 52.5 mph.

In the IL MUTCD (Part 7), there is discussion of establishing a “School Entrance Speed Limit” up to 15 mph below the normal posted speed limit. These should be established if crash records indicate a need for speed reduction or if the following conditions are met:

1. The students are transported to and from school by bus and/or private vehicles.
2. No provisions are made for students to walk to and from school.
3. Where vehicles waiting to turn into the entrance cause excessive queuing on the highway.
4. The entrance is not controlled by traffic signals.

The above four conditions are met at the school entrance on Ketchum Road. Students are and will be transported to and from school by bus or private vehicle. There are no provisions for students to walk to and from school. Vehicles waiting to turn into the entrance do cause excessive queuing on the highway according to Chief Brian Thompson of the Hampshire Police Department. A photo showing the queuing situation follows. The entrance is not controlled by traffic signals.

A speed study has not been conducted on Ketchum Road. However, Chief Thompson attests that the noted speed in that area of Ketchum Road is between 40-45 mph. The posted speed is 45 mph. There is support from the Police Department to establish a reduced speed using a school entrance speed limit.

Therefore, we propose to establish a school entrance speed limit of 30 mph, which is 15 mph less than the normally posted speed. This conditional speed limit would be in force on school days from 7 a.m. until 4 p.m. Exhibit 1 shows our proposed sign layout on Ketchum Road.
