The Illinois Municipal League (IML) is pleased to partner with the Illinois Bicentennial Commission to promote opportunities for our member municipalities to celebrate Illinois’ 200th birthday. Toward that end, we have crafted a sample resolution, which is available via this link, that your municipality can adopt at an upcoming city council or village board meeting. Ideally, the resolution should be adopted prior to or soon after December 3, 2017. Once adopted, please send a copy of your resolution to me for inclusion in a packet of all municipal resolutions that will be formally presented to the Illinois Bicentennial Commission for historical purposes.

For more information on the Illinois Bicentennial, visit http://www.illinois200.com. There you can view events planned throughout the state, which take place from December 3, 2017 until Illinois’ official birthday on December 3, 2018.

If your community plans any special Bicentennial events, we would appreciate hearing about them. We may even share photos of the event in our IML Review magazine coverage of the Bicentennial throughout the year. Please share event details with Rebecca Turner at rturner@iml.org.

Re: Tuscany Woods, Unit #2  
Concept Plan

Dear Ms. Vasquez:

At the regular meeting of the Village of Hampshire Plan Commission conducted on October 9, 2017, the following matters were submitted to the Plan Commission for its consideration:

Concept Plan for Tuscany Woods Subdivision, Unit #2.

After a presentation to the Commission by petitioner, and discussion by the Plan Commission members, the following resulted:

A motion made by Wetzel, seconded by Roselli, to recommend approval of the Concept Plan, subject to the various comments and questions raised during the meeting, was approved by a vote of 4 aye to 0 nay.

The comments and questions raised during the meeting are attached hereto.

Accordingly, the Hampshire Plan Commission respectfully recommends approval of the Concept Plan for the Tuscany Woods Subdivision, Unit #2, as noted.

Please forward this recommendation to the Village Board of Trustees in accordance with §6-18-8 of the Village Code.

Respectfully submitted,

William Robinson  
Chairman  
Hampshire Plan Commission
1. Mr. Small stated that if approved, this development plan would be marketed to homebuilders; there are only five (5) such builders in the market.

2. Mr. Small noted that the lots sizes range from 8,036 to 25,127 (with one at 36,282), for an average size of 12,067 sq.ft. on this Concept Plan; and this range of lot sizes will provide a better mix of housing types.

3. Commissioner Wetzel noted that there are smaller homes in Unit #1, and he would prefer larger homes to better protect property values in the village. Mr. Small noted that there would be no townhomes in Unit #2. He hoped that the Petitioner would sell the development to Wm. Ryan Homes, for example.

4. In regard to detention/retention ponds shown on the Concept Plan, have they been constructed, and will they be wet bottom or dry bottom. Small responded that two of the ponds (wet bottom) are built; and the others will be constructed as part of the development of Unit #2 (and will be wet bottom).

5. Commissioner Wetzel Inquired if Unit #2 will utilize infrastructure constructed for Unit #1; and if so, stated that residents of Unit #2 should make payments of special taxes (so as to reduce the payments due from current owners in Unit #1). Mr. Small responded that there is no SSA on Unit #2, because the owners paid off the special taxes / bonds for that area. Also, it was noted that wastewater from Unit #2 will be conveyed directly north and west without traveling through Unit #1. The developer will be responsible to build infrastructure for Unit #2.

6. There is a walking pathway depicted on the Concept Plan; Mr. Small noted that the developer would be responsible to construct a small portion (in the NE corner of the territory) and he did not know who would construct the pathway through Orris Ruth Park.

7. There is a natural gas pipeline through the subdivision. There is some "trigger point" (number of homes) at which the pipeline company will be required at its expense to improve the pipeline within the easement.

8. Commissioner Rossetti asked why Petitioner felt that this change in the development plan would be good for the village. Mr. Small responded that building out the stalled development area, and including a commercial tract, would be good for the village. The market calls for smaller lots; the younger generation prefers less yard to maintain. It also allows for infrastructure to be used more efficiently. It does not necessarily threaten property values.

9. Commissioner Wetzel asked why the commercial tract was only 4 acres in size. Mr. Small responded that he would be happy if the market called for a larger space; but his experience is that less and less commercial space is called for, given the rise of e-commerce.

10. Commissioner Wetzel noted that he believed people move to Hampshire to obtain more house for their money. Mr. Small noted that his company owns vacant land on the west side of Elgin, and no one in interested in buying and developing it.

11. Commissioner Robinson noted that more homes are needed in Hampshire to attract needed commercial development. Also, the market now is for homes in the range of $200,000 - $300,000. He believed that this development by itself cannot restore property values to the former range of value.
12. There was discussion about how close together the houses would be on the smaller lots. Mr. Small explained that some might be 15’ apart (7.5 on each side), and others would be 20’ apart (10’ on each side).

13. Commissioner Wetzel asked if the existing Development Agreement could be amended; the Village Attorney responded that amendments were possible, but would take agreement of the parties. No amendment to the Development Agreement would come before the Plan Commission, but any such amendment would be considered by the Board of Trustees.

14. Dr. Scarpino, local school board member, requested that the following information be provided to CUSD 300: 1) bedroom count for the development; 2) starting date for the development; 3) absorption rate for anticipated sales in the development; and 4) confirmation that the impact fees and transition fees due from the development will not be waived by the Village. Mr. Small responded that he would not anticipate any development during then next two years; and that a estimate of bedroom count could be made now, but would ultimately depend on the builder. The Village Attorney and Village Engineer responded that a review of the Development Agreement would need to be done to answer regarding impact fees due from this development.

15. The Commission asked what Impact fees and transition fees would be due from the developer of Unit #2. A review of the original Development Agreement will be required.

16. In regard to Orris Ruth Park, there is no playground. It was asked, whose responsibility was it to construct the playground depicted on the Phase I Park Improvements Plan? Would this developer do it?

17. Ms. Schraw inquired as to why the Phase I Park Improvements had not been completed, according to plan; and asked what amount of funds for park purposes might yet be due from this development. She noted that Park District funds are limited. It was also noted that Orris Ruth Park had recently been conveyed to the Park District.

18. Ms. Schraw commented that she hoped that adequate parking would be provided for the duplex units, so as to avoid overflow parking in Orris Ruth Park.

AGENDA SUPPLEMENT

TO: President Magnussen and Village Board
FROM: Lori Lyons, Finance Director
FOR: November 2, 2017 Village Board Meeting
RE: Village Hall and State Street Lighting

Background. Dave Scheck was a guest speaker at the September 7, 2017 meeting of the Village of Hampshire Board of Trustees meeting. Mr. Scheck showed off lighting products of L.E.D. Rite, LLC that are manufactured in Hampshire. The first was thin pane; LED fixture which would replace the florescent fixtures on the first floor at Village Hall while the second was clear lense LED fixture designed to replace the cobra head exterior fixtures on the light poles along State Street. Mr. Scheck also described the ComEd Energy Efficiency Program which would, if successful in gaining approval for assistance, greatly reduce the cost of the projects.

Analysis. LED Rite assisted the Village in making application with ComEd, and the Village received notification that both applications were successful. With the ComEd program coming to a close at calendar year end, all work would need to be completed and paperwork submitted prior to that to gain the incentive funding.

LED Rite has quoted the Village Hall project with labor included. While estimated, it is expected that labor will not exceed $2,000 (shown at $1,045.37 without investigation into current wiring). To maximize the incentive, this project needs to be completed and paperwork turned in by November 17. Not reflected on this quote is the manufactured in Illinois bonus or the early bird discount bonus (November 17 date).

The LED Rite has quoted the exterior fixtures for State Street at the cost of the fixture alone. The Village assumes at this point that Village electrical contractor Tom O’Shea will complete the installation. Because the manufacturing needs to be completed and the installation will need to be worked into Mr. O’Shea’s schedule, it is expected that the early bird deadline for the added bonus will not be able to be met but the Village would still be entitled to the manufactured in Illinois bonus assuming the project is completed by year end.

Recommendation. Staff recommends the Board accept the October 25 acknowledgement for first floor interior lighting fixtures and installation at a cost not to exceed $5,172.50. Staff also recommends the Board tentatively accept the October 25 acknowledgement for the exterior lighting fixture at a cost of $428.40. This acceptance is pending the ability to schedule installation before year-end.
