# **Agenda Supplement**

TO: President Reid; Board of Trustees

FROM: Mo Khan, Assistant Village Manager for Development

FOR: Village Board Meeting on September 19, 2024
RE: PZC-24-05 - Outlot 23 Kelley Rd. - Variance

**Background:** Crown Development dba Hampshire West, LLC (Petitioner & Owner) is requesting a variance to Sec. 6-11-2-J of the Hampshire Zoning Ordinance to permit the construction of a gravel parking lot, whereas the code requires it to be a paved surface, for a future park/ballfields to be owned and operated by the Hampshire Township Park District.

Crown Development as part of its Annexation Agreement with the Village of Hampshire is required to development a 29-acre park for the Park District. As part of the development, Crown Development is required to construct/install \$65,000 in improvements. Through discussions with the Park District, it was determined that the most needed improvements were a parking lot and a bike/multi-use path.

It should be noted that the Village Board has approved similar variance requests for gravel parking lots for other projects.

**Planning & Zoning Commission Recommendation:** The Planning & Zoning Commission held a Public Hearing on the matter on September 9, 2024 and recommended denial of the variance request by a vote of 5-1.

The Planning & Zoning Commission found that the Petitioner did not meet the Findings of Fact for a variance.

**Public Comments:** The following public comments were provided regarding the request:

- 1. Hampshire Township Park District Letter of Support
- 2. Kim Krug 46W755 Kelley Rd.
  - a. Asked about why the parking lot is needed for the proposed park.
- 3. Doug Bergdahl 46W781 Kelley Rd.

a. Stated based on the construction activity on the site that a paved parking lot could've been constructed

**Recommendation:** For the Village Board to consider the Planning & Zoning Commission denial recommendation of the variance to Sec. 6-11-2-J of the Hampshire Zoning Ordinance.

# **AGENDA SUPPLEMENT**

**TO:** Planning & Zoning Commission

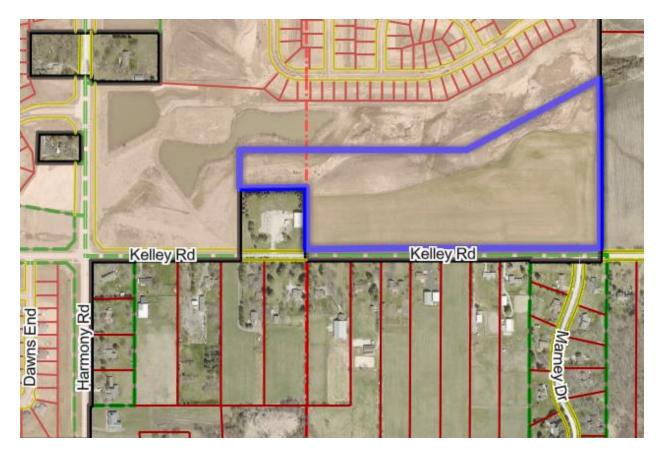

FROM: Mo Khan, Assistant Village Manager for Development

FOR: Planning & Zoning Commission Meeting on September 9, 2024

RE: PZC-24-05 - Outlot 23 Kelley Rd. - Variance

**PROPOSAL:** Crown Development dba Hampshire West, LLC (Petitioner & Owner) is requesting the following in order to operate a public park by the Hampshire Township Park District:

1. Variance to Sec. 6-11-2-J of the Hampshire Zoning Ordinance to permit a gravel parking lot, whereas it is required to be a paved surface.

# Village of Hampshire 234 S. State Street, Hampshire IL 60140 Phone: 847-683-2181 Lywwy hampshireil ord

Phone: 847-683-2181 | www.hampshireil.org

**BACKGROUND:** Crown Development as part of its Annexation Agreement with the Village of Hampshire is required to develop a 29-acre park. As part of the development, Crown Development is required to construct/install \$65,000 in improvements to the park and then transfer ownership of the property to the Hampshire Township Park District ("Park District").

From discussions with the Park District, it was determined that the most needed improvements were a parking lot and a bike path. The bike path would connect to the Prairie Ridge trail system.

The Park District is completing a master plan for the Kelley Rd. park, which will ultimately decide the final location of the parking lot, which may differ from the proposed location of the gravel parking lot.

**ANALYSIS:** The subject property is approximately 29 acres with frontage on Kelley Rd. east of Harmony Rd. and is proposed to be used as a public park for the Park District.

The subject property is zoned PRD - Planned Residential District. The following are the adjacent property zoning and uses:

North: PRD: Planned Residential District - Stormwater Detention/Retention Area

South: Unincorporated - Residential Use

East: Unincorporated - Farming/Agricultural Use

West: PRD: Planned Residential District - Stormwater Detention/Retention Area

The Planning & Zoning Commission did recently recommend approval of the same variance request for two other properties but with the condition that the gravel parking lot be only allowed for a three (3) year period.

**REQUIRED FINDINGS OF FACT:** Sec. 6-14-3-F-11-a sets forth the following standards for variances:

The Planning & Zoning Commission shall not recommend a variation unless it shall find, based upon evidence presented to it at the public hearing on the application for variance, the following:

1. That the property in question cannot yield a reasonable return if permitted to be used only under the conditions allowed by the regulations governing the district in which it is located, and that the variation if granted, will not alter the essential character of the locality.

# Village of Hampshire 234 S. State Street, Hampshire IL 60140 Phone: 847-683-2181 | www.hampshireil.org

2. That the plight of the owner is due to unique circumstances and that the variation, if granted, will not alter the essential character of the locality.

For the purpose of supplementing the above standards, the Planning & Zoning Commission shall also take into consideration the extent to which the following facts, favorable to the applicant, have been established by the evidence:

- 1. That the particular physical surrounds, shape, or topographical conditions of the specific property involved would bring a particular hardship upon the owner as distinguished from a mere inconvenience if the strict letter of the regulation were to be carried out.
- 2. That the conditions upon which the petition for variation is based would not be applicable generally to other property within the same district.
- 3. That the purpose of the variation is not based exclusively upon a desire to make more money out of the property.
- 4. That the alleged difficulty or hardship has not been created by any person presently having an interest in the property.
- 5. That the granting of the variation will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located.
- 6. That the proposed variation will not impair adequate supply of light and air to adjacent property, or substantially increase danger of fire, or otherwise endanger the public safety, or substantially diminish or impair property values within the neighborhood.

# **PROPOSED FINDINGS OF FACT:** The proposed findings of fact shall be as follows:

- The property cannot yield a reasonable return if permitted to be used under the current regulations due to the fact that the Park District as a public agency is limited in funds that are available to improve the property with a paved parking lot. The construction of a gravel parking lot will be keeping character of the locality as the properties across Kelley Rd. are unincorporated and also have gravel driveways.
- 2. The plight of the owner is unique in that as a public agency funds are limited to constructing a paved parking lot. The Park District's desire is to have a paved parking lot once the Park District's master plan is completed and funds are available. Thus, the request is not based on saving money but rather on pending future plans and funding.

**PUBLIC COMMENTS:** Village staff received a Letter of Support by the Park District, which is included as an attachment to this Agenda Supplement.

**STAFF RECOMMENDED CONDITIONS OF APPROVAL:** Village staff is not recommending any conditions of approval.

## **RECOMMENDED MOTION:**

I move to accept and adopt Staff's Findings of Fact included in the Agenda Supplement and recommend approval of PZC-24-05 for a variance request to Sec. 6-11-2-J of the Hampshire Zoning Ordinance to permit a gravel parking lot, whereas it is required to be constructed of a paved surface, for the property located at Outlot 23 Kelley Rd.

# **Project Narrative**

# Prairie Ridge North Outlot 23 Park

Pursuant to our Annexation Agreement with the Village of Hampshire, we are required to develop a 29 acre community park along Kelley Rd and east of Harmony Rd. In addition to grading and seeding the park, we are obligated to install \$65,000 worth of improvements to the park and, once completed, deed the park to the Hampshire Township Park District (HTPD). Upon consulting with the Park District Executive Director, it was determined that the district's greatest need for the park was a parking lot and bike path connection to the extensive trail system throughout Prairie Ridge.

We worked with the district to determine the most appropriate location and size of the bike path and parking lot as well as the access off Kelley Rd. The district requested that the parking lot be constructed of gravel (no asphalt) as it would be temporary in nature. They have not yet completed their master plan for the park and are concerned that the parking lot may need to be relocated once the plan is established. In the meantime, they intend to utilize the park for their fall sports programs. It is their desire to provide off street parking for the participants and spectators as parking along Kelley Rd is unsafe (see attached letter from HTPD).

Village code does not allow for gravel parking fields and, as such and for the reasons mentioned above, we request a variance to allow for the gravel lot. We believe this will not alter the essential character of the locality as there many gravel lanes and parking areas on existing properties within the adjacent incorporated properties. The temporary nature of the parking lot makes the situation unique as the district does not currently have the means nor desire to pave the parking lot with asphalt, yet they have a great need for sports fields within the district to accommodate their fall sports programs.

Thank you for your consideration.

Dear Hampshire Village President Reid and the Board of Trustees,

In our continued partnership with Crown for our future park parcels, I wanted to request that the board considers approval of a variance for a gravel lot at the Kelley Road Park.

Due to the roadway and ditch on Kelley Road, the only way to provide off road parking for this site was to build a parking lot. Paving the lot would also cost over the \$65,000 in the developer's obligated improvements to the site, and the Park District is currently still in the construction phase with Seyller Park and will not receive the grant reimbursement from the project completion until next year to have any capital funds available to make such an improvement at this time.

More importantly, we are making this request for a temporary lot until we have a master plan for the site. Paving this lot at this time could require more work later on should the configuration change. We would prefer to not spend the funds twice or be locked into the parking lot location when the space is desperately needed for our sports programs.

More importantly, we would like to acquire this parcel to use for fall soccer and flag football as Ream Park's continued use is showing wear on the grass. This past year the fall and spring seasons totaled 74 soccer teams. Practices and games for 20 weeks of the year is starting to show the wear on the grass without enough rest, especially since Ream Park is located in a floodplain.

We appreciate your consideration of this request.

Sincerely,

Laura Schraw, PLA/ASLA Executive Director

#### AGENDA SUPPLEMENT

TO: President Reid and Village Board

FROM: Lori Lyons, Finance Director

FOR: September 19, 2024 Village Board Meeting

**RE:** Resolution approving the quote of Visu-Sewer for the lining of Sewer

**Background.** The Utilities Division of Public Works routinely utilizes the sewer jetting process to clear sanitary sewer lines of debris and roots throughout the Village; this work is done inhouse. One section of sewer line along State from Jackson to Grove was thought to possibly be obstructed by roots so the Utilities Division called in Visu-Sewer to televise and investigate the situation prior to the jetting process. Visu found that area to be infiltrated with tree roots. Pipe lining is a cost-effective method of repairing and rehabilitating the area and requires only small access points as opposed to total excavation. This process involves a cured-in-place pipe product that has a 50-year design life.

**Analysis.** Visu-Sewer, having completed the preliminary work necessary for lining, was asked to provide a quote to line the subject area. Their proposal came in at \$25,488.00.

**Recommendation.** Staff requests the Board approval of the attached resolution authorizing the Village Manager to accept the quote of Visu-Sewer for the lining of the sanitary sewer line on State Street from Jackson to Grove.

#### Resolution 24 –XX

# A RESOLUTION WAIVING COMPETITIVE BIDDING REQUIREMENTS AND ACCEPTING THE QUOTE OF VISU-SEWER FOR LINING THE SANITARY SEWER LINE ALONG STATE STREET FROM JACKSON AVENUE TO GROVE AVENUE IN THE VILLAGE OF HAMPSHIRE

WHEREAS, the Village President and Board of Trustee have determined that it is in the best interest of the Village and the public to waive competitive bidding and accept the quote provided by the Vendor, for the project.

NOW, THEREFORE, BE IT RESOLVED BY THE PRESIDENT AND BOARD OF TRUSTEES OF THE VILLAGE OF HAMPSHIRE, KANE AND MCHENRY COUNTIES, ILLINOIS, AS FOLLOWS:

#### AGENDA SUPPLEMENT

TO: President Reid and Village Board

FROM: Lori Lyons, Finance Director

FOR: September 19, 2024 Village Board Meeting

**RE:** Resolution approving the quote of Marc Kresmery Construction LLC for the

rehabilitation of the Brine Tanks at the 10/13 Drinking Water Treatment

**Plant** 

**Background.** The Well 10/13 drinking water treatment plant utilizes an ion-exchange treatment process with four softener vessels. Regeneration of the resin within the softening vessels is completed by salt brine that is stored on-site in two underground brine tanks. There are several layers of filter media on top of a collector pipe within the tanks. After 15 years of use, it is time for rehabilitation. This project was not included in the FY24 budget but is being determined to be of high priority and therefore some planned surge suppression will be deferred until FY26.

**Analysis.** The Village has had a long-term association with Marc Kresmery Construction LLC (Kresmery) and is a trusted vendor who has performed work on both the water and wastewater utilities. Kresmery provided a quote for the rehabilitation work for \$34,515.00 and staff recommends accepting this quote.

Rehabilitation of the bring tanks at the 10/13 Drinking Water Treatment Plant will maintain the Village's potable water infrastructure to meet the needs of the community.

**Recommendation.** Staff requests the Board approval of the attached resolution authorizing the Village Manager to accept the quote of Marc Kresmery Construction LLC for the rehabilitation of the brine tanks at the 10/13 Drinking Water Treatment Plant in the amount of \$34,515.00.

Re: Well 12 Equipment Removal and Inspection - Agenda Supplement

EEI Job #: HA2411-V

#### **Background**

The 1,000 gpm Galena-Platteville & Mt. Simon Well No. 12 is currently located near the southeast corner of Gast Road and Highbrook Avenue, just west of Hampshire High School and on the site of the Tamms Farm EWST. The well was constructed, and its pumping equipment has been in situ since the well was deepened in 2008. The downturn in the economy and stalled residential development postponed construction of the associated treatment plant and rendered the well extraneous for the time being. It cannot be operated due to lack of existing electrical infrastructure, and it would need the treatment plant to be constructed to utilize the well and be compliant with water quality regulations.

Since the pump and motor equipment has been in the well and not operated for over 15 years, it is almost certainly not functional and would need rehabilitation or even replacement before the well can be used. The equipment should be removed from the well, inspected, and a determination made about whether it can be rehabilitated for future use in Well 12 or as a backup for other Village wells. If it cannot be rehabilitated, the Village will know that it will need to purchase new pumping equipment when the time comes to construct the Well 12 Water Treatment Plant, and can plan/budget appropriately for that work.

The Village has asked EEI to assist with Design and Construction Engineering for this project. EEI has experience with similar projects and will prepare a Project Manual for soliciting proposals from up to three (3) local contractors that specialize in well rehabilitations. EEI's scope will include analysis of rehabilitation/replacement options, based upon inspection of the equipment, and preparation of a memo that will provide a summary of options and a recommendation for next steps. The scope does not include work associated with rehabilitation of the equipment, since the viability of rehabilitation is unknown at this time. EEI has prepared the attached Professional Services Agreement (PSA) in an amount of \$19,886.00. If approved in September/October 2024, we expect the associated work to be complete prior to May 1, 2025.

#### STANDARD TERMS AND CONDITIONS

**Agreement:** These Standard Terms and Conditions, together with the Professional Services Agreement, constitute the entire integrated agreement between the OWNER and Engineering Enterprises, Inc. (EEI) (hereinafter "Agreement"), and take precedence over any other provisions between the Parties. These terms may be amended, but only if both parties consent in writing. However, to the extent that the Scope of Work differs from the Standard Terms and Conditions, the Scope of Work document controls.

**Standard of Care:** In providing services under this Agreement, the ENGINEER will endeavor to perform in a matter consistent with that degree of care and skill ordinarily exercised by members of the same profession currently practicing under same circumstances in the same locality. ENGINEER makes no other warranties, express or implied, written or oral under this Agreement or otherwise, in connection with ENGINEER'S service.

Construction Engineering and Inspection: The ENGINEER shall not supervise, direct, control, or have authority over any contractor work, nor have authority over or be responsible for the means, methods, techniques sequences, or procedures of construction selected or used by any contractor, or the safety precautions and programs incident thereto, for security or safety of the site, nor for any failure of a contractor to comply with laws and regulations applicable to such contractor's furnishing and performing of its work.

The ENGINEER neither guarantees the performance of any contractor nor assumes responsibility for contractor's failure to furnish and perform the work in accordance with the contract documents.

The ENGINEER is not responsible for the acts or omissions of any contractor, subcontractor, or supplies, or any of their agents or employees or any other person at the site or otherwise furnishing or performing any work.

Shop drawing and submittal review by the ENGINEER shall apply to only the items in the submissions and only for the purpose of assessing if upon installation or incorporation in the project work they are generally consistent with the construction documents. OWNER agrees that the contractor is solely responsible for the submissions and for compliance with the construction documents. OWNER further agrees that the ENGINEER'S review and action in relation to these submissions shall not constitute the provision of means, methods, techniques, sequencing or procedures of construction or extend or safety programs or precautions. The ENGINEER'S consideration of a component does not constitute acceptance of the assembled items.

The ENGINEER'S site observation during construction shall be at the times agreed upon in the Project Scope. Through standard, reasonable means the ENGINEER will become generally familiar with observable completed work. If the ENGINEER observes completed work that is inconsistent with the construction documents, that information shall be communicated to the contractor and OWNER for them to address.

Opinion of Probable Construction Costs: ENGINEER'S opinion of probable construction costs represents ENGINEER'S best and reasonable judgment as a professional engineer. OWNER acknowledges that ENGINEER has no control over construction costs of contractor's methods of determining pricing, or over competitive bidding by contractors, or of market conditions or changes thereto. ENGINEER cannot and does not guarantee that proposals, bids or actual construction costs will not vary from ENGINEER'S opinion of probable construction costs.

Copies of Documents & Electronic Compatibility: Copies of Documents that may be relied upon by OWNER are limited to the printed copies (also known as hard copies) that are signed or sealed by the ENGINEER. Files in electronic media format of text, data, graphics, or of other types that are furnished by ENGINEER to OWNER are only for convenience of OWNER. Any conclusion or information obtained or derived from such electronic files will be at the user's sole risk. When transferring documents in electronic media format, ENGINEER makes no representations as to long term compatibility, usability, or readability of documents resulting from the use of software application packages, operating systems, or computer hardware differing from those used by ENGINEER at the beginning of the project.

Changed Conditions: If, during the term of this Agreement, circumstances or conditions that were not originally contemplated by or known to the ENGINEER are revealed, to the extent that they affect the scope of services, compensation, schedule, allocation of risks, or other material terms of this Agreement, the ENGINEER may call for renegotiation of appropriate portions of this Agreement. The ENGINEER shall notify the OWNER of the changed conditions necessitating renegotiation, and the ENGINEER and the OWNER shall promptly and in good faith enter into renegotiation of this Agreement to address the changed conditions. If terms cannot be agreed to, the parties agree that either party has the absolute right to terminate this Agreement, in accordance with the termination provision hereof.

Hazardous Conditions: OWNER represents to ENGINEER that to the best of its knowledge no Hazardous Conditions (environmental or otherwise) exist on the project site. If a Hazardous Condition is encountered or alleged, ENGINEER shall have the obligation to notify OWNER and, to the extent of applicable Laws and Regulations, appropriate governmental officials. It is acknowledged by both parties that ENGINEER's scope of services does not include any services related to a Hazardous Condition. In the event ENGINEER or any other party encounters a Hazardous Condition, ENGINEER may, at its option and without liability for consequential or any other damages, suspend performance of services on the portion of the project affected thereby until OWNER: (i) retains appropriate specialist consultant(s) or contractor(s) to identify and, as appropriate, abate, remediate, or remove the Hazardous Condition; and (ii) warrants that the project site is in full compliance with applicable Laws and Regulations. ENGINEER agrees to cooperate with the OWNER, as necessary, to remediate a Hazardous Condition, but same may result in additional costs to the OWNER.

Consequential Damages: Notwithstanding any other provision of this Agreement, and to the fullest extent permitted by law, neither the OWNER nor the ENGINEER, their respective officers, directors, partners, employees, contractors, or subcontractors shall be liable to the other or shall make any claim for any incidental, indirect, or consequential damages arising out of or connected in any way to the Project or to this Agreement. This mutual waiver of consequential damages shall include, but is not limited to, loss of use, loss of profit, loss of business, loss of income, loss of reputation, or any other consequential damages that either party may have incurred from any cause of action including negligence, strict liability, breach of contract, and breach of strict or implied warranty. Both the OWNER and the ENGINEER shall require similar waivers of consequential damages protecting all the entities or persons named herein in all contracts and subcontracts with others involved in this project.

**Termination:** This Agreement may be terminated for convenience, without cause, upon fourteen (14) days written notice of either party. In the event of termination, the ENGINEER shall prepare a final invoice and be due compensation as set forth in the Professional Services Agreement for all costs incurred through the date of termination.

Either party may terminate this Agreement for cause upon giving the other party not less than seven (7) calendar days' written notice for the following reasons:

- (a) Substantial failure by the other party to comply with or perform in accordance with the terms of the Agreement and through no fault of the terminating party:
- (b) Assignment of the Agreement or transfer of the project without the prior written consent of the other party;
- (c) Suspension of the project or the ENGINEER'S services by the OWNER for a period of greater than ninety (90) calendar days, consecutive or in the aggregate.
- (d) Material changes in the conditions under which this Agreement was entered into, the scope of services or the nature of the project, and the failure of the parties to reach agreement on the compensation and schedule adjustments necessitated by such changes.

Payment of Invoices: Invoices are due and payable within 30 days of receipt unless otherwise agreed to in writing.

**Third Party Beneficiaries:** Nothing contained in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the OWNER or the ENGINEER. The ENGINEER'S services under this Agreement are being performed solely and exclusively for the OWNER'S benefit, and no other party or entity shall have any claim against the ENGINEER because of this Agreement or the performance or nonperformance of services hereunder. The OWNER and ENGINEER agree to require a similar provision in all contracts with contractors, subcontractors, vendors and other entities involved in this Project to carry out the intent of this provision.

Force Majeure: Each Party shall be excused from the performance of its obligations under this Agreement to the extent that such performance is prevented by force majeure (defined below) and the nonperforming party promptly provides notice of such prevention to the other party. Such excuse shall be continued so long as the condition constituting force majeure continues. The party affected by such force majeure also shall notify the other party of the anticipated duration of such force majeure, any actions being taken to avoid or minimize its effect after such occurrence, and shall take reasonable efforts to remove the condition constituting such force majeure. For purposes of this Agreement, "force majeure" shall include conditions beyond the control of the parties, including an act of God, acts of terrorism, voluntary or involuntary compliance with any regulation, law or order of any government, war, acts of war (whether war be declared or not), labor strike or lock-out, civil commotion, epidemic, failure or default of public utilities or common carriers, destruction of production facilities or materials by fire, earthquake, storm or like catastrophe. The payment of invoices due and owing hereunder shall in no event be delayed by the payer because of a force majeure affecting the payer.

**Additional Terms or Modification:** All prior understandings and agreements between the parties are merged into this Agreement, and this Agreement may not be modified orally or in any manner other than by an Agreement in writing signed by both parties. In the event that any provisions of this Agreement shall be held to be invalid or unenforceable, the remaining provisions shall be valid and binding on the parties.

**Assignment:** Neither party to this Agreement shall transfer or assign any rights or duties under or interest in this Agreement without the prior written consent of the other party. Subcontracting normally contemplated by the ENGINEER shall not be considered an assignment for purposes of this Agreement.

**Waiver:** A party's waiver of, or the failure or delay in enforcing any provision of this Agreement shall not constitute a waiver of the provision, nor shall it affect the enforceability of that provision or of the remainder of this Agreement.

**Attorney's Fees:** In the event of any action or proceeding brought by either party against the other under this Agreement, the prevailing party shall be entitled to recover from the other all costs and expenses including without limitation the reasonable fees of its attorneys in such action or proceeding, including costs of appeal, if any, in such amount as the Court may adjudge reasonable.

**Fiduciary Duty:** Nothing in this Agreement is intended to create, nor shall it be construed to create, a fiduciary duty owed to either party to the other party. EEI makes no warranty, express or implied, as to its professional services rendered.

**Headings:** The headings used in this Agreement are inserted only as a matter of convenience only, and in no way define, limit, enlarge, modify, explain or define the text thereof nor affect the construction or interpretation of this Agreement.

## ATTACHMENT B: SCOPE OF SERVICES EXHIBIT 1

#### SECTION A - PROFESSIONAL ENGINEERING SERVICES

For purposes of this Exhibit 1 and all attachments hereto, the term "contractor" shall not refer to Engineering Enterprises, Inc., but shall instead refer to individuals or companies contracted with, to construct or otherwise manage the project described herein. The ENGINEER shall furnish professional design and construction engineering services as follows:

- 1. The ENGINEER will attend conferences with the OWNER, or other interested parties as may be reasonably necessary.
- 2. The ENGINEER will perform the necessary design surveys, accomplish the detailed design of the project, prepare construction drawings, specifications and contract documents, and prepare a final cost estimate based on final design for the entire system. It is also understood that if subsurface explorations (such as borings, soil tests, rock soundings and the like) are required, the ENGINEER will furnish coordination of said explorations without additional charge, but the costs incident to such explorations shall be paid for by the OWNER as set out in Section C hereof.
- 3. The contract documents furnished by the ENGINEER under Section A-2 shall utilize IEPA endorsed construction contract documents, including Supplemental General Conditions, Contract Change Orders, and partial payment estimates.
- 4. Prior to the advertisement for bids, the ENGINEER will provide for each construction contract, not to exceed 10 copies of detailed drawings, specifications, and contract documents for use by the OWNER, appropriate Federal, State, and local agencies from whom approval of the project must be obtained. The cost of such drawings, specifications, and contract documents shall be included in the basic compensation paid to the ENGINEER.

- 5. The ENGINEER will furnish additional copies of the drawings, specifications and contract documents as required by prospective bidders, material suppliers, and other interested parties, but may charge them for the reasonable cost of such copies. Upon award of each contract, the ENGINEER will furnish to the OWNER five sets of the drawings, specifications and contract documents for execution. The cost of these sets shall be included in the basic compensation paid to the ENGINEER. Original documents, survey notes, tracings, and the like, except those furnished to the ENGINEER by the OWNER, are and shall remain the property of the ENGINEER.
- 6. The drawings prepared by the ENGINEER under the provisions of Section A-2 above shall be in sufficient detail to permit the actual location of the proposed improvements on the ground. The ENGINEER shall prepare and furnish to the OWNER without any additional compensation, three copies of map(s) showing the general location of needed construction easements and permanent easements and the land to be acquired. Property surveys, property plats, property descriptions, abstracting and negotiations for land rights shall be accomplished by the OWNER, unless the OWNER requests, and the ENGINEER agrees to provide those services. In the event the ENGINEER is requested to provide such services, the ENGINEER shall be additionally compensated as set out in Section C hereof.
- 7. The ENGINEER will complete the final plans, specifications and contract documents and submit for approval of the OWNER, and all State regulatory agencies to meet the project schedule(s) as summarized in Attachment D: Anticipated Project Schedule.
- 8. Upon award of the construction contract, the ENGINEER will furnish to the OWNER two sets of the drawings and specifications. The cost of these sets shall be included in the basic compensation paid to the ENGINEER. Original documents, survey notes, tracings, and the like, except those furnished to the ENGINEER by the OWNER, are and shall remain the property of the ENGINEER.
- 9. The ENGINEER will review, for conformance with the design concept, shop and working drawings required by the construction Contract Documents and indicate on the specifications the action taken. Such action shall be taken with reasonable promptness.

- 10. The ENGINEER will interpret the intent of the specifications to protect the OWNER against defects and deficiencies in construction on the part of the contractors. The ENGINEER will not, however, guarantee the performance of any Contractor.
- 11. The ENGINEER will evaluate and determine acceptability of substitute materials and equipment proposed by Contractor(s).
- 12. The ENGINEER will establish baselines for locating the work together with a suitable number of benchmarks adjacent to the work as shown in the contract documents.
- 13. The ENGINEER will provide general engineering review of the work of the contractor(s) as construction progresses to ascertain that the contactor is conforming to the design concept.
  - (a) ENGINEER shall have authority, as the OWNER's representative, to require special inspection of or testing of the work, and shall receive and review all certificates of inspections, testing and approvals required by laws, rules, regulations, ordinances, codes, orders or the Contract Documents (but only to determine generally that their content complies with requirements of, and the results certified indicate compliance with, the Contract Documents).
  - (b) During such engineering review, ENGINEER shall have the authority, as the OWNER's representative, to disapprove of or reject contractor(s)' work while it is in progress if ENGINEER believes that such work will not produce a completed Project that conforms generally to the Contract Documents or that it will prejudice the integrity of the design concept of the Project as reflected in the Contract Documents.
- 14. The ENGINEER will provide part-time resident construction observation. For this type of extended duration project, part-time refers to being on-site only during critical phases of the work when construction activities require it. Resident construction observation shall consist of visual inspection of materials, equipment, or construction work for the purpose of ascertaining that the work is in substantial conformance with the contract documents and with the design intent. Such observation shall not be relied upon by others as acceptance of the work. The ENGINEER's

undertaking hereunder shall not relieve the contractor of contractor's obligation to perform the work in conformity with the drawings and specifications and in a workmanlike manner; shall not make the ENGINEER an insurer of the contractor's performance; and shall not impose upon the ENGINEER any obligation to see that the work is performed in a safe manner.

- 15. The ENGINEER will cooperate and work closely with representatives of the OWNER.
- 16. Based on the ENGINEER's on-site observations as an experienced and qualified design professional, on information provided by the Resident Construction Observer, and upon review of applications for payment with the accompanying data and schedules by the contractor, the ENGINEER:
  - (a) Shall determine the amounts owing to contractor(s) and recommend in writing payments to contractor(s) in such amounts. Such recommendations of payment will constitute a representation to OWNER, based on such observations and review, that the work has progressed to the point indicated, and that, to the best of the ENGINEER's knowledge, information and belief, the quality of such work is generally in accordance with the Contract Documents (subject to an evaluation of such work as a functioning whole prior to or upon substantial completion, to the results of any subsequent tests called for in the Contract Documents, and to any other qualifications stated in the recommendation).
  - (b) By recommending any payment, ENGINEER will not hereby be deemed to have represented that exhaustive, continuous, or detailed reviews or examinations have been made by ENGINEER to check the quality or quantity of contractor(s)' work as it is furnished and performed beyond the responsibilities specifically assigned to ENGINEER in the Agreement and the Contract Documents. ENGINEER's review of contractor(s)' work for the purposes of recommending payments will not impose on Engineer responsibility to supervise, direct or control such work or for the means, methods, techniques, sequences, or procedures of construction or safety precautions or programs incident thereto or contractor(s) compliance with laws, rules, regulations, ordinances, codes or orders applicable to their furnishing and performing the work. It will also not impose responsibility

on ENGINEER to make any examination to ascertain how or for what purposes any contractor has used the moneys paid on account of the Contract Price, or to determine that title to any of the work, materials equipment has passed to OWNER free and clear of any lien, claims, security interests, or encumbrances, or that there may not be other matters at issue between OWNER and contractor that might affect the amount that should be paid.

- 17. The ENGINEER will prepare necessary contract change orders for approval of the OWNER, and others on a timely basis.
- 18. The ENGINEER will make a final review prior to the issuance of the statement of substantial completion of all construction and submit a written report to the OWNER. Prior to submitting the final pay estimate, the ENGINEER shall submit the statement of completion to and obtain the written acceptance of the facility from the OWNER.
- 19. The ENGINEER will provide the OWNER with one set of reproducible record (as-built) drawings (including digital copy in PDF format), and two sets of prints at no additional cost to the OWNER. Such drawings will be based upon construction records provided by the contractor during construction and reviewed by the resident construction observer, from the resident construction observer's construction data, and from the ENGINEER'S confirmatory As-Built Survey of critical elevations and structures.
- 20. If State Statutes require notices and advertisements of final payment, the ENGINEER shall assist in their preparation.
- 21. The ENGINEER will be available to furnish engineering services and consultations necessary to correct unforeseen project operation difficulties for a period of one year after the date of statement of substantial completion of the facility. This service will include instruction of the OWNER in initial project operation and maintenance but will not include supervision of normal operation of the system. Such consultation and advice shall be at the hourly rates as described in the attached Attachment E: Standard Schedule of Charges.

- 22. The ENGINEER further agrees to obtain and maintain, at the ENGINEER's expense, such insurance as will protect the ENGINEER from claims under the Workman's Compensation Act and such comprehensive general liability insurance as will protect the OWNER and the ENGINEER from all claims for bodily injury, death, or property damage which may arise from the performance by the ENGINEER or by the ENGINEER's employees of the ENGINEER's functions and services required under this Agreement.
- 23. The ENGINEER will provide construction engineering services for the construction duration summarized in Attachment D: Anticipated Project Schedule. If the above is not accomplished within the time period specified, this Agreement may be terminated by the OWNER. The time for completion may be extended by the OWNER for a reasonable time if completion is delayed due to unforeseeable cases beyond the control and without the fault or negligence of the ENGINEER. The contract shall be designated on-going consistent with the project schedule.

#### SECTION B – COMPENSATION FOR ENGINEERING SERVICES

- 1. The OWNER shall compensate the ENGINEER for professional engineering services in the amount of Nineteen Thousand Eight Hundred Eighty-Six Dollars Fixed (FF) (\$19,886.00 FF) as summarized on Attachment C: "Estimate of Level of Effort and Associated Cost for Professional Engineering Services".
  - (a) The compensation for the professional engineering services shall be payable as follows:
    - (1) A sum which does not exceed ninety percent (90%) of the total compensation payable under Section B-1 shall be paid in monthly increments for work actually completed and invoiced, for the preparation and submission to the OWNER of the construction drawings, specifications, cost estimates and contract documents, and for construction engineering services.
    - (2) A sum which, together with the compensation paid pursuant to Section B-1(a)(1) above, equals one hundred percent (100%) of the total compensation due and payable in accord with Section B-1 above, shall be due after receipt of the invoice in accordance with the Illinois Prompt Payment Act.
- 2. The OWNER shall compensate the ENGINEER for direct expenses as identified in the contract and as noted in the attachments at the actual cost or hourly cost for the work completed.
  - (1) A sum which equals any charges for work actually completed and invoiced shall be paid at least once per month.
- 3. The compensation for any additional engineering services authorized by the OWNER pursuant to Section C shall be payable as follows:
  - (a) A sum which equals any charges for work actually completed and invoiced shall be paid at least once per month.

#### SECTION C - ADDITIONAL ENGINEERING SERVICES

In addition to the foregoing being performed, the following services may be provided UPON PRIOR WRITTEN AUTHORIZATION OF THE OWNER.

- 1. Site surveys outside of the project limits and other similar special surveys as may be required.
- 2. Laboratory tests, well tests, borings, specialized geological soils hydraulic, or other studies recommended by the ENGINEER that are not already included in the scope.
- 3. Property surveys, detailed description of sites, maps, drawings, or estimates related thereto; assistance in negotiating for land and easement rights.
- 4. Necessary data and filing maps for litigation, such as condemnation.

- 6. Appearances before courts or boards on matters of litigation or hearings related to the project.
- 7. Preparation of environmental impact assessments or environmental impact statements.
- 8. Making drawings from field measurements of existing facilities when required for planning additions or alterations thereto.
- 9. Services due to changes in the scope of the Project or its design, including but not limited to, changes in size, complexity, schedule or character of construction.
- 10. Revising studies or reports which have previously been approved by the OWNER, or when revisions are due to cases beyond the control of the ENGINEER.

- 11. Preparation of design documents for rebidding or for alternate bids where major changes require additional documents.
- 12. Preparation of detailed renderings, exhibits or scale models for the Project.
- 13. Providing special analysis of the OWNER's needs such as owning and operating analysis, plan for operation and maintenance, OWNER's special operating drawings or charts, and any other similar analysis. Further information on the details of the operation and maintenance document will be provided in a separate Construction Engineering Agreement.
- 14. The preparation of feasibility studies, appraisals and evaluations, detailed quantity surveys of material and labor, and material audits or inventories by the OWNER.
- 15. Additional or extended services during construction made necessary by (1) work damaged by fire or other cause during construction, (2) defective or incomplete work of the contractor, and/or (3) the contractor's default on the Construction Contract due to delinquency or insolvency.
- 16. Providing design services relating to future facilities, systems and equipment which are not intended to be constructed or operated as a part of the Project.
- 17. Attachment B, Exhibit 2 includes further details of included and excluded work scope items.
- 18. Providing other services not otherwise provided for in this Agreement, including services normally furnished by the OWNER as described in Section D SPECIAL PROVISIONS Owner's Responsibilities.

Payment for the services specified in this Section D shall be as agreed in writing between the OWNER and the ENGINEER prior to commencement of the work. The ENGINEER will render to OWNER for such services an itemized bill, separate from any other billing, once each month, for compensation for services performed hereunder during such period, the same to be due and payable by OWNER to the ENGINEER in accordance with the Illinois Prompt Payment Act. Payment for services noted in D shall be at Actual Cost (AC), Fixed Fee (FF) or Hourly (HR).

#### **SECTION D - SPECIAL PROVISIONS**

#### 1. OWNER'S RESPONSIBILITIES

- (a) Provide to the ENGINEER all criteria, design and construction standards and full information as to the OWNER's requirements for the Project.
- (b) Designate a person authorized to act as the OWNER's representative. The OWNER or his representative shall receive and examine documents submitted by the ENGINEER, interpret and define the OWNER's policies and render decisions and authorizations in writing promptly to prevent unreasonable delay in the progress of the ENGINEER's services.
- (c) Furnish laboratory tests, air and water pollution tests, reports and inspections of samples, materials or other items required by law or by governmental authorities having jurisdiction over this Project, or as recommended by the ENGINEER.
- (d) Provide legal, accounting, right-of-way acquisition and insurance counseling services necessary for the Project, legal review of the construction Contract Documents, and such auditing services as the OWNER may require to account for expenditures of sums paid to the contractor.
- (e) Furnish above services at the OWNER's expense and in such manner that the ENGINEER may rely upon them in the performance of his services under this Agreement and in accordance with the Project timetable.
- (f) Guarantee full and free access for the ENGINEER to enter upon all property required for the performance of the ENGINEER's services under this Agreement.
- (g) Give prompt written notice to the ENGINEER whenever the OWNER observes or otherwise becomes aware of any defect in the Project or other event which may

substantially affect the ENGINEER's performance of services under this Agreement.

- (h) Protect and preserve all survey stakes and markers placed at the project site prior to the assumption of this responsibility by the contractor and bear all costs of replacing stakes or markers damaged or removed during said time interval.
- 2. Delegation of Duties Neither the OWNER nor the ENGINEER shall delegate his duties under this Agreement without the written consent of the other.
- 3. The ENGINEER has not been retained or compensated to provide design services relating to the contractor's safety precautions or to means, methods, techniques, sequences, or procedures required by the contractor to perform his work but not relating to the final or completed structure. Omitted services include but are not limited to shoring, scaffolding, underpinning, temporary retainment of excavations and any erection methods and temporary bracing.
- 4. The ENGINEER intends to render his services under this Agreement in accordance with generally accepted professional practices for the intended use of the Project.
- 5. Since the ENGINEER has no control over the cost of labor, materials, equipment or services furnished by others, or over the contractor(s) methods of determining prices, or over competitive bidding or market conditions, his opinions of probable Project Costs and Construction Costs provided for herein are to be made on the basis of his experience and qualifications and represent his best judgment as an experienced and qualified professional engineer, familiar with the construction industry. The ENGINEER cannot and does not guarantee that proposals, bids or actual project or construction cost will not vary from opinions of probable cost prepared by him. If prior to the bidding or negotiating phase OWNER wishes greater assurance as to project or construction costs he shall employ an independent cost-estimator.
